## MEMORANDUM

DATE: September 29, 2006

TO: Ken Marcy, Task Monitor, EPA, Region 10, Seattle, WA

FROM: Renee Nordeen, START-3 Project Leader, E & E, Seattle, WA *RN*

SUBJ: Site Recommendations  
Former Nike Launch Site #81

REF: Contract No. EP-S7-06-02  
Technical Direction Document No. 06-01-0035

This recommendations memorandum has been developed for the Former Nike Launch Site #81 site, which is located in Poulsbo, Washington, as part of a site reassessment (SR). The site is a former United States Army missile launching site that operated from 1955 to 1966.

The portion of the site where the missile silos and associated features were located is currently the location of a Wal-Mart store and a strip mall. No military features still remain at the site. The site has been paved, therefore no current sources of Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)-hazardous substances remain at the site. No contaminants in target samples are attributable to the site.

Based on these findings, the information contained in the Former Nike Launch Site #81 SR report, and the accompanying Hazard Ranking System score of 0, no further action under CERCLA is recommended.

If you have any questions regarding this memorandum, please call me at (206) 624-9537.
